

Sequence logo for the 11th position of the 12-mer motif. The y-axis represents information content in bits, ranging from 0 to 4. The x-axis shows the amino acids: E, R, Q, V, S, V, D, E, L, L, D. The 'S' at position 11 has the highest information content, exceeding 4 bits. The 'V' at position 10 also shows high information content. The 'D' at position 12 has a lower information content compared to the other positions.

E	R	Q	V	S	V	D	E	L	D
E	R	Q	V	S	V	D	E	L	D
E	R	Q	V	S	V	D	E	L	D
E	R	Q	V	S	V	D	E	L	D
